Nurturing Creativity workshops are designed to stimulate your creativity and help you gain an understanding of the value of open ended child initiated play and expression.

By completing these workshops you will be able to immediately apply new skills learned in your workplace. You will become competent in setting up learning environments that are responsive to children’s interests and gain the ability to plan intentional teaching that nurtures original thoughts. This programme will be delivered over four 2-hour interactive workshops.

The assessment closely reflects the National Quality Framework and the ethos of Being, Belonging and Becoming so that you can continue to meet the needs of the individual children at your service in a way that gives them a sense of agency and control over their learning.

**BY COMPLETING THIS COURSE YOU WILL**

- Stimulate creativity through the physical and human environments
- Foster creativity through the appropriate learning frameworks and design a flexible program
- Promote the use of a diverse range of materials to encourage creative expression
- Introduce children to a range of examples of creative expression in art, architecture, inventions, music and dance
- Role-model creativity by improvising with equipment and materials
- Encourage children to pursue their own original ideas, interpretations and expressions.

**NURTURING CREATIVITY SKILL SET**

- CHCECE018 Nurture creativity in children
- CHCECE022 Promote children’s agency
